

## TECHNICAL

### Switcher short-sleeved polo

BO.102C-BO.103C-BO.104C-BO.105C-BO.106C

HS Code	6105.10000
Country of Origin	PORTUGAL

Characteristic	
Color	white
Size	L-XL-XXL
Material	100% cotton
Weight	0,305kg
Capacity	
Ink color	

Printing	
Printing method	embroidery
Printing position [A]	heart
Printing size [A]	60mm
Color number [A]	2
Printing position [B]	back
Printing size [B]	250mm
Color number [B]	2

Packaging	
Printing method	oui

Traceability is a core value of the Switcher philosophy. All available information about products and product certifications have been published on [www.respect-code.org](http://www.respect-code.org) since 2006. This is where it is explained each stage of the production chain: from raw materials to shipment to Switzerland.

Production in the textile industry is primarily dependent on human resources. That is why Switcher supports fair wages and improved living and working conditions.

The textile industry has a huge impact on the environment and may cause environmental damage if adequate precautionary measures are not taken. Switcher is daily involved in environmental using natural and recycled materials.

The combined expertise of Switcher and Prem Group cover all levels of the production chain, from the cotton field to our high-quality networks.

**More information**

[respect-code.org](http://respect-code.org) The Respect Code allows traceability of the product: from raw materials to finished garment, transport and distribution by Switcher. For each stage: certifications, audits, social and environmental projects. [www.respect-code.org](http://www.respect-code.org)

Fair Wear Foundation is an international verification organization that strives for fair working conditions worldwide. Switcher is member since 2006. [www.fairwear.org](http://www.fairwear.org)

CO2 emission impact from raw material to the finished product and transport to the point of sale. Detailed information in kg: [www.respect-code.org](http://www.respect-code.org)

Impact of water at every stage of the life cycle from raw material through to the point of sale. Detailed information in kg: [www.respect-code.org](http://www.respect-code.org)

Oeko-Tex standard 100 is a standardized worldwide testing and certification system for textile products at all stages of processing.

## **REACH CONFORM**

European regulation for registration, evaluation, authorization and restriction of chemicals since June 2007.
